Subject: Microsoft Settlement

It appears that the settlement allows for benefits to organizations that would not normally receive benefits. Additionally the heightened awareness of the issue should preclude these actions in the future there by putting the issue to rest. Now is not the time to further weaken our economy by adapting the rules to favor a few.

I think the Government would be better served by applying its resources to areas where help is truly needed such as airport and border security and the rights of individuals trying to access our Country.

Regards,

John Kerr
